PROJECT

Masked Face Recognition

This final year college projects aim to recognise faces even with masks. Some activities done by me during the project are :-

- Face Alignment using MTCNN
- Cleaning dataset based on distance between embeddings
- Creating masked dataset

Django Project

Personal project which is available in my github to study various functionalities of django like linking web pages, using databases with mysql, form handling etc.

EXPERIENCE

Web Developer Intern

Botx Automation

Used HTML, CSS , JS being part of a web development team.

Collaborated along with designers to develop websites.
